Summary

Full-Stack Developer skilled in the MERN stack, REST APIs, JWT authentication, and scalable web applications. Strong foundation in Data Structures, OOP, and DBMS with a current CGPA of **9.33**.

Education

Chaitanya Bharathi Institute of Technology (CBIT)

2024 – 2028

B.E. Computer Science Engineering

CGPA: **9.33**

Technical Skills

Languages: Java, Python, JavaScript, C++

Frontend: React.js, HTML5, CSS3, Vite

Backend: Node.js, Express.js, REST APIs, JWT, RBAC

Databases: MongoDB

Tools: Git, GitHub, Postman, VS Code

Core CS: DSA, OOP, DBMS

Projects

Full-Stack Blog Platform React.js — Node.js — Express.js — MongoDB

GitHub

- Built a scalable MERN blogging platform with secure JWT authentication, HTTP-only cookies, and RESTful APIs.
- Implemented Role-Based Access Control (RBAC), CRUD operations, image uploads using Multer + ImageKit, and backend validation.
- Improved application security using Helmet, rate limiting, and modular backend architecture.

Modern Blog Frontend React.js — Vite

GitHub Live

- Developed a responsive React frontend with protected routes, reusable components, and dynamic navigation.
- Integrated backend services using Axios and REST APIs for authentication, blog management, and user interactions.
- Enhanced user experience with Framer Motion animations and optimized rendering using React Hooks.

F1 Racing Data Dashboard React.js — REST APIs

GitHub Live

- Built an interactive Formula One dashboard displaying drivers, constructors, races, and championship standings.
- Integrated the Ergast API with client-side caching to improve loading speed and reduce redundant API requests.
- Designed reusable SVG visualizations and responsive UI components for an engaging user experience.

Developer Portfolio Website HTML — CSS — JavaScript

GitHub Live

- Designed and developed a fully responsive developer portfolio showcasing projects, technical skills, and achievements.
- Implemented interactive UI components, smooth scrolling, and responsive layouts using modern HTML, CSS, and JavaScript.
- Optimized performance, accessibility, and cross-browser compatibility for a seamless user experience.
